Training Policy of Agriculture University, Kota

Preamble

This policy is based on the tenet of 'competency-based training for all' implying thereby that all cadres should get due emphasis for training. The policy also gives guidelines and directions on competency framework, objectives and nature of training, training target, role of the University and training institution, trainer development, foreign training, funding, implementation, coordination, monitoring and evaluation. This document is prepared in the wake of the National Training Policy 2012 and ICAR HRM Policy: Training and Capacity Building to evolve the **Training Policy of Agriculture University, Kota** in sync with the National Policy as well as ICAR Policy in terms of tenets, targets, implementation, monitoring and evaluation. The present document encompasses model training schemes for teaching/scientific, technical, ministerial and Accounts, and Class IV staff.

1. Background

- 1.1 The Government of India issued the National Training Policy in April, 1996 through a set of operational guidelines for the development of the human resources. This followed the process of liberalization of the economy through de-licensing and deregulation began in 1991 and the 73rd and 74th Amendments in the Constitution, which came into effect in 1993 thereby creating a changed socio-economic climate in the country. In the light of these major changes, the country brought about the National Training Policy, 2012.
- 1.2 These, along with other changes since then, such as rapid economic growth, enhanced transparency through right to information, globalization, liberalization, climate change, intellectual property regime (IPR), commercialisation of agricultural technologies and reorganisation of agribusiness management have created a complex and challenging environment in which the Agriculture University, Kota has to perform major role at a time when there are increasing expectations of its performance and ability to respond more efficiently and effectively to cater the needs of the farmers and citizens of the State of Rajasthan.
- 1.3 The Human Resource Management function has also undergone a significant change. Organisations are attaching tremendous importance to the management and development of their people. There is increasing recognition that the individual in an organisation is a key resource and should not be simply considered as a cost.
- 1.4 The Agriculture University, Kota mostly follows the Government systems of personnel administration that continue to focus largely on the rules and procedures governing the recruitment, retention and career development of its employees. Systematic training of employees has been totally lacking. As a result of this, systematic training schedule of teaching /scientific, technical staff, ministerial and subordinate, and Class IV staff has become a critical concern.
- 1.5 For transforming the teaching as well as other employees of Agriculture University, Kota it is imperative to move to a strategic human resource development system which will look at the individual as a vital resource to be valued, motivated, developed and enabled to achieve the Organisation's mission and objectives. Within this transformational process, it is essential to match individuals' competencies with the jobs they have to do and bridge competency gaps for present and future roles through training.

2. Competency Framework

2.1 People need to manage their work, interpersonal relationships as and when the need arises, manage others, organizations and institutions. To accomplish this, they need to build their competencies and capacities and improve their knowledge, skills and attitude. To manage their work efficiently and effectively, they need to develop their technical abilities, human capacities as well as conceptual capabilities. Their education prepares them mostly with the technical work skills; however, it is on the job management training that lays a foundation of human and conceptual capacities. Continued technical and managerial development through periodic training is necessary to sharpen the saw from time to time to excel at the cutting edge of performance. The Training Policy of Agriculture University, Kota aims to actualize this philosophy and prepare a road map to work on this important area effectively.

Competencies encompass knowledge, skills and behaviour, which are required in an individual for effectively performing the functions of a post. Competencies may be broadly divided into those that are core skills which scientists and other employees would need to possess with different levels of proficiency for different functions or levels. Some of these competencies pertain to leadership, financial management, people management, resource management, information technology, project management and communication. The other set of competencies relate to the professional or specialized skills, which are relevant for specialized functions such as conducting research, teaching, extension, etc. in the areas of plant and animal sciences, natural resources management, social and basic sciences, etc.

2.2 A fundamental principle of the competency framework is that each job should be performed by a person who has the required competencies for that job.

2.3 Training has usually been based on the duties that are to be performed in a particular post. There has been no comprehensive review or classification of all posts in accordance with functions that are to be performed and the competencies required thereto. Thus, the issue of whether an individual has the necessary competencies to be able to perform the functions of a post has not been addressed yet. For moving to a competency-based approach, it would be necessary to categorize the distinct types of posts and to indicate the competencies required for performing work in such posts. Once the competencies are laid down, an individual's development can be more objectively linked to the competencies needed for the current or future jobs. Career progression and placement need to be based on matching the individual's competencies to those required for a post. The training plan of the Agriculture University, Kota (AUK) needs to address the gap between the existing and the required competencies and provide opportunities to the employees to develop their competencies. This would require development of infrastructure to do competency mapping studies of not only each position, but also for each individual employee. The Directorate of HRD at the AUK shall be the nodal agency to take-up this responsibility.

Training Need Identification (TNI) and Training Need Analysis (TNA) shall be done properly and regularly. The Training Need Identification could be of two types. Firstly, training to be given to employees in different cadres mostly based on the competency model of training referred above. Secondly, there could be individual training needs also where a person has to be trained to strengthen or overcome weaknesses in their specific individual areas of work for further improvement. In general, TNA should be done in the

background of organisational objectives and needs. There is a need to develop an 'Institutionalized System of Training Need Identification' on regular basis once in 3-5 years based on the individual training needs as well as cadre training needs. Subsequently, a yearly calendar of Training Programme could be prepared in advance.

3. Training Objectives

3.1 The objectives of training will be to develop professional, effective and efficient AUK personnels that are responsive to cater the needs of the students, farmers, citizens and other stakeholders and help in realizing organisational mandate and vision. In doing so, care should be taken to emphasize the development of proper ethics, commitment to work and empathy for the vulnerable sections such as differently abled, senior citizens, SCs, STs, etc. The competency framework shall be used to ensure that personnel have the requisite knowledge, skills and attitude/behaviour to effectively perform the functions they are entrusted with. The success of training will lie in actual improvement in the performance of employees.

4. Training Target

4.1 All the employees of AUK shall be provided with training to equip them with the competencies for their current or future jobs. Such training shall be imparted:

- a) At the time of their entry into service, and
- b) At appropriate intervals in the course of their careers

4.2 Such training shall be made available for all employees (teaching/scientific, technical, ministerial and accounts, and Class IV) of AUK from the lowest level functionaries to the highest level.

4.3 The opportunities for training shall not be restricted only at mandated points in a career but would be available to meet needs as they arise through a mix of conventional courses, distance and e-learning.

4.4 Preference for nominating the officials for training may be given to those who are in the consideration for promotion to the next higher grade.

4.5 Training Programmes for Staff

The Teaching/Scientific, Technical and Ministerial and accounts staff may be broadly *categorized in 3-4 levels in each of the different cadres of AU, Kota.

Cadre	Level-1	Level-2	Level-3	Level-4
Teaching/ Scientific staff	SMS/ Professor/ Librarian Assistant Assistant	Associate Professor/ Scientist-cum-Head Senior	Professor	ZDR/ Directors/ Deans
Technical staff	Agriculture Supervisor/ Engineer/ Pump Electrician-cum- Plumber, Fitter, Lab Junior Driver. Operator/	Asstt. Officer, Assistant Agriculture Supervisor with 18 years' service/ Agril. Library and Agriculture Supervisor with 18 years' service/ Lab	AAO, Technical Assistant with 18 years' service, Assistant Engineer	--

	Technician/ Lab Assistant Grade-II/ Lab Attendant, Informatics Assistant (IA), Legal Assistant (LA), Farm Manager/ Technical Assistant/ Library Assistant, Care taker/ Matron, Computer Operator	Assistant Grade -I/ Driver. *This categorization is valid only for training policy

There should be foundation/induction cum orientation training for all employees of all categories at the entry level of the service. Every employee must undergo orientation training within one month of joining the service at the place decided by the Competent Authority, varying in period and content based on cadre. The Associate Professors/Senior Scientists/Professors who join through lateral entry from other universities or other organizations (without AUK foundation course experience at Assistant Professor/Scientist or Associate Professor/ Senior Scientists level as the case may be) shall compulsorily undergo refresher course/training of 4 weeks as an Induction cum Orientation training programme.

4.5.1 Model Scheme for Teaching/Scientific Service

4.5.1.1 Nature and frequency of training

The Teaching/Scientific staff shall be encouraged to undergo training in each grade and successful completion would be considered for promotion in the next grade. Training to be imparted in the technical subject matter area as well as in personality development and management as per broader framework given below. The Cadre Training Plan has been suggested in **Annexure – I(a)**.

Level-1: The SMS/Assistant Professor/Assistant Librarian should undergo the foundation/induction cum orientation training at AUK or other appropriate Institution/Organization. Assistant Professor in each grade pay viz., 6000/-, 7000/- and 8000/- shall undergo in-country training of 2-3 weeks (Refresher course/training) after 2 years approved service in the grade. Besides, selected 20% Assistant Professor (Grade pay Rs 7000/-) based on APAR, scientific expertise required in emerging areas of agricultural science and significant attainments would undergo one need based advanced technical training abroad of 1-3 months duration relevant to the identified area of work at CGIAR Centers or other reputed International Institutes after one year service in the grade. Foundation Course is to impart training in personality development, interpersonal relationships, teamwork, research project management, agricultural education management, information and communication management, transfer of technology, orientation to global

and national agricultural research systems and scenario, as well as hands-on experience in the subject matter area at advanced research laboratories/institutes. The technical training would be undertaken in the mandated area of work for strengthening of fundamentals and exposing to cutting-edge science and technology in the respective field of specialization.

Level-2: The direct recruited Associate Professor/ Senior Scientist-cum-Head shall undergo Induction cum orientation training of 4 weeks, who have not undergone Induction/orientation training previously at AU, Kota. The promotee Associate Professor/Senior Scientist-cum-Head would undergo 2-3 weeks refresher course/training within 6 months of joining. Selected 15% Associate Professor/Senior Scientist-cum-Head, who have not undergone foreign training at Level-1, based on APAR, scientific expertise required in emerging areas of agricultural science and significant attainments shall be sent for advanced technical training abroad of 1-2 months duration, in the relevant identified area of work at CGIAR Centers or other reputed International Institutes after 2 years of approved service in the grade. Besides, Associate Professors/Senior Scientist-cum-Heads shall undergo in-country training of 2-3 weeks (Refresher course/training) after 2 years' service in the grade. The training programmes may mainly consist of technical content with minor components of behavioural and human skills. The topics would cover the subject matter with wider exposure to advances in the respective field of specialization of the concerned Associate Professor/ Senior Scientist-cum-Head.

Level-3: The direct recruited Professor or equivalent shall undergo Induction cum orientation training of 4 weeks, who has not undergone Induction/orientation training previously at AU, Kota. The promotee Professor would undergo 2-3 weeks refresher course/training within 6 months of joining. Those Professor, who have completed 18-20 years' total service (with at least 4 years' service in grade pay) and aspire to move into leadership position such as Dean/ Directors/ Administrative posts must undergo Pre-SLP (Scientific Leadership Position) course at any other Institute like NAARM, ASCI, HCM RIPA, etc. competent Institutions for administrative and managerial skills through Management Development Programme on Leadership Development. After 6 years of approved service in the grade, Professors shall undergo in-country training of 1-2 weeks. Besides, selected 10% Professors, who have not undergone foreign training at Level-1 & 2, based on APAR and significant attainments shall undergo one need based advanced technical training abroad of 1 month duration relevant to the identified area of work at CGIAR Centers or other reputed International Institutes. Professors, with 9 years of approved service in the grade and having at least 2 years' service left shall undergo in-country training of one week. In general, the training programmes may consist of a mix of technical and managerial content. The topics shall cover both subject matter related to the concerned Professor focusing on recent advances in the field of specialization and cutting-edge science and technologies as well as management related aspects or any such capacity building programme relevant to the job/cadre.

Level-4: Newly nominated/selected ZDR/Directors/ Deans (Scientific Leadership Positions) for a term of 3 years need to complete Executive Development Programme on Leadership Development at NAARM, Hyderabad/ASCI, Hyderabad or equivalent Institutions for 2-3 weeks which may also include 1 week in the form of foreign component within six months of joining. Training is to be imparted to Scientific Leadership Positions (SLPs) in order to ensure that mechanisms are put in place in the institutions to enhance the performance of the employees and the institution. The development of programmes for SLPs may focus on revisiting leadership issues. The coverage of training at this stage may include administrative and management related aspects as well as conceptual and human skills or any such capacity

building programme relevant to the job/cadre. The SLPs may be exposed to training programme in retreat mode for enhancing the effectiveness of the programme.

Besides, need-based training of 1 week in every 3-4 years shall be arranged for Professor till 2 years are left in the service. Assistant Professors/Scientists or Associate Professors/Senior Scientists stagnating in a post for more than three years shall also undergo training of 01 week duration in the subject area.

4.5.2 Model Scheme for Technical Service

4.5.2.1 Nature and frequency of training

The Technical staff shall be encouraged to undergo one training in each grade or every 5 years service and successful completion of the training would be considered for promotion in the next grade. As the technical service in AU, Kota consists of different categories and grades under each category, as per university norms the nature of service rendered and competency required vary according to the grades and categories. Taking due cognizance of these, a variable mix of induction cum orientation training, refresher courses/training and field visits/exposures is proposed as per broader framework given below. The Cadre Training Plan has been suggested in **Annexure – I(b)**.

Level-1: The newly recruited staff as mentioned above shall undergo Foundation/Induction cum orientation training for 4 weeks and a refresher course/training of 2-3 weeks duration after 3 years of approved service in the grade. Since, the services of technical staff at Level-1 are mostly supporting in nature in farm, animal houses, fish pond, laboratory, instrumentation, logistics, etc., major component of training would be in technical or job-related areas with minor components of behavioural and human skills.

Level-2: There shall be in-country training of 2-3 weeks for promotee (Refresher course/training) with 1 week field/exposure visit to other related Institutes/Organizations of repute within 6 months service in the grade. The training programmes of Middle level category II will focus on both technical and conceptual skills like basic concepts of use of computers, lab equipment maintenance and record keeping, motivation techniques, team work, personality development, farm/field management or any such capacity building programme relevant to the job/cadre.

Level-3: There shall be in-country training of 2-3 weeks for promotee (Refresher course/training) with 1 week field/exposure visit to other related Institutes/Organizations of repute within 6 months service in the grade. Technical personnel in senior category are given the responsibility for rendering independent and collaborative support to the scientific cadres and their academic background and competency requirements are higher than the other categories. Since, technical staff of this group need human and conceptual competencies in addition to technical skills, therefore, training should encompass areas like e-Learning, scientific, technical and human skills along with relevant financial management aspects or any such capacity building programme relevant to the job/cadre.

Besides this, a need-based programme of one week duration shall be arranged for employees in every 4-5 years interval.

4.5.3 Model Scheme for Ministerial and Accounts Staff (including stenographer)

4.5.3.1 Nature and frequency of training

The Ministerial and Subordinate staff shall be encouraged to undergo one training in each grade and successful completion of the training would be considered for promotion in the next grade. The stenographer services in AU, Kota consist of 3 different grades. The nature of service rendered and competency required vary according to the grade. Taking due cognizance of these, a variable mix of induction cum orientation training and refresher course/training is proposed. The Cadre Training Plan has been suggested in **Annexure – I(c)**.

Level-1: The newly recruited Clerk Grade-II/Stenographer shall undergo Foundation/Induction cum orientation training of 4 weeks. Besides, there shall be 2-3 weeks refresher courses/trainings for staff after 3 years of service in the grade. Since, the services of Ministerial and Subordinate at junior categories are mostly supporting in nature in office, therefore, major component of training would be in job-related areas with minor components of behavioural and human skills. Training should focus on use of IT tools, written and oral language proficiency, and service orientation or any such capacity building programme relevant to the job/cadre.

Level-2: There shall be 4 weeks refresher course/training including field visits/exposures for promotee Clerk Grade-I/ ASO/PA staff within 6 months of promotion. Training programme shall cover ministerial and related management aspects as well as conceptual and human skills or any such capacity building programme relevant to the job/cadre.

Level-3: There shall be Foundation/Induction cum Orientation training of 4 weeks at joining and refresher course/training for 1-2 weeks duration including field visits/exposures for SO/Asstt. Registrar/senior PA, PS after 3 years' service in the grade. Further, these cadres need human and management competencies in addition to administrative and ministerial skills.

Besides, a need-based programme of one week duration shall be arranged for employees in every 4-5 years.

4.5.5 Model Scheme for Class IV Staff

There shall be an Induction cum Orientation training of 2 weeks duration in the beginning at the functional unit level for newly recruited employees, if any and one skill-up gradation training in every five years for a week including field visits/exposures.

The duration of training programmes prescribed above for different categories are indicative. The Director HRD may take an appropriate view, in case of capacity building programmes reasonably vary from the prescribed duration. In general, an employee must have more than two years' service left to undergo any sort of training.

4.6 Gender sensitivity

It is proposed that care should be taken in case of non-officer female staff, so that they are not unduly inconvenienced to travel long distances for training and if possible, a specialised training programme for women staff members may be organised within the University itself or close to work place.

While selecting Institutions for advanced training, possibilities of inviting faculty from outside AU, Kota for in-house training for larger number of beneficiaries as well as harnessing of the expertise and the infrastructure developed in National Agricultural Research and Education System (NARES) in cutting edge areas of research should be appropriately explored. The Directorate of HRD at the University level may take initiative in this regard in consultation with the Dean/Director/Incharge of the functional units. The panel of sponsoring institutes/organizations shall be prepared by Directorate of HRD.

5. Role of the University

In order to achieve organisational objectives, AUK endeavours to adopt a Systematic Approach to Training and shall:

- i. Nominate Director HRD as Training Manager of AUK who will be the Nodal Person for implementation of the training functions in the AUK.
- ii. Create a Directorate/Training Cell with Capacity Building Professionals to assist the Training Manager at the AUK HQs. A senior person shall be nominated as HRD Nodal Officer in every Functional Unit by the respective Incharges and be associated with the Technical Cell of the Functional Unit.
- iii. Classify all posts with a clear job description and competencies required.
- iv. Develop cadre training plans (CTPs) based on the competencies required and training needs for ensuring that all cadres under the AUK have a clearly articulated scheme for the development of their competencies while also indicating the programmes that are mandatory. **Normally training as per cadre training plans (CTPs) is mandatory in nature.** Each functional unit might identify cadre wise priority training need areas..
- v. In order to ensure that the desired number of employees can be spared for training at the same time sufficient employees are in position as per the requirement, one-fourth to -fifth (20-25%) of the total employees in each cadre in the Functional Units /HQs must be trained every year.
- vi. Link the training and development of competencies of individuals to their career progression and ensure this by suitably amending Acts and Statues/ Service rules/ issuing administrative instructions, if required. Training shall be linked with annual assessment and career advancement. **The completion of foundation /induction cum orientation training shall be mandatory for clearance of the probation of the newly recruited employees. Any Promotion / Progression in career of the employee shall be considered only after completion of the mandatory training as per cadre training plans (CTPs).** The proposal for next training should be considered keeping in view that how previous training has been effectively utilized
- vii. Ensure that any non-training interventions that need to accompany training interventions are also taken up suitably; here, it is important to ensure that mechanisms other than training are put in place in the Functional Unit/HQs to enhance the performance of the employees. Such mechanisms include performance appraisal, potential appraisal, review discussions, feedback-counseling sessions, role analysis exercises, potential development exercises, communication policies, mentoring, job rotations, career development systems, rewards, job enrichment and organizational development interventions.
- viii. The immediate supervisor shall ensure that the staff working under him/her is appropriately trained to perform effectively and efficiently.
- ix. An appropriate provision in any new scheme/project is incorporated to ensure that suitable training is imparted for its proper implementation and sustainability.
- x. Wherever feasible, use the services of the Training Institutions like ICAR and non-ICAR-Institutes in developing the cadre training plans, outsourcing training, and/or providing advisory or consultancy services to the Council/Research Institutes.

- xi. Annual Training Plan (ATP) shall be prepared by the for all the cadres each Functional Unit and Directorate of HRD for the employees of the AUK, HQs.
- xii. Allocate appropriate funds to enable the training to be carried out by each Functional Unit under its control or outside.
- xiii. AUK shall incorporate a section/chapter in the AUK/Functional Unit Annual Report on training and capacity building activities undertaken during the year for the employees and also for other stakeholders separately.
- xiv. Provide induction cum orientation training to new entrants and prepare and upload the induction material on the website of the AUK for easy accessibility.
- xv. Organize 'On the Job' and 'In-house' training as may be required.
- xvi. A panel of training organisations and Institutes be prepared by the Directorate of HRD and develop a network of training institutions to meet the present and future training needs.
- xvii. For effective utilization of training imparted to employees, they may be supported by adequate financial and manpower requirements after training.
- xviii. Allocate appropriate funds to HRD for such activities.
- xix. AUK may collaborate with SAARC, ASEAN, BRICS and other developed countries to establish a forum for exchange of information relating to agricultural issues with reference to training, education and research.

6. Trainer Development

- 6.1 The Government of India's Trainer Development Programme (TDP) has been one of the most successful instances of transfer of learning under a donor project resulting in the development of a cadre of trainers. The concept of "once a trainer, always a trainer" that was enunciated in the Government of India's National Training Policy, 1996 has aided its success. AUK also needs to take advantage of this programme. There is an urgent need to identify the current international best practices in training skills and techniques and develop a cadre of trainers in such skills/techniques. There is also a need for setting up a Learning Resources Centre (LRC), preferably on a suitable public private partnership mode so that sustainable indigenous capacity is built in this area. Further, the mutual strengths of training institutions at different levels could be better harnessed by strategic networking and partnerships.
- 6.2 As the development of domain specific trainers is important, it is desirable to develop cadres of trainers' in different sectoral and functional specializations. AU, Kota would take the initiative to develop such trainers in the areas of their responsibility/specialization. It is proposed that few scientists/officials are identified in each subject/discipline of AUK and practising professionals from private and non-government sectors to be designated as 'master trainers (mentors)' in their respective areas of specialisation.
- 6.3 AU, Kota may provide suitable incentives for the faculty who have qualified/got trained and transformed themselves into management specialists.
- 6.4 Trainer/faculty development needs to be 'driven' by an appraisal/review system.

7. Foreign Training

- 7.1 Foreign training fills a crucial gap in the training system. It provides opportunities for Scientists/officers to gain exposure to the latest thinking on different subjects in some of

the leading institutions of the world. It exposes them to experiences and best practices of different countries with differing models of development and governance. In Government of India, since 2001, the scheme of Domestic Funding for Foreign Training (DFFT) has become the main source under which officers are now sent for foreign training. Such a provision may also to be made in AU, Kota.

- 7.2 In AUK, there is a need to start and strengthen the DFFT scheme as well as other similar schemes of various cadre controlling authorities so that scientists and other officers have the opportunity to attend both long-term and short-term programmes to develop in-depth competencies in a range of subjects/areas or specific specialized subjects. Foreign training may also be sought in management as well as technical disciplines.
- 7.3 All foreign trainings for the employees of different categories shall be finalised at the university level by a Selection Committee chaired by Vice Chancellor; Director of Research, Director of Extension Education and one Faculty Dean as members and Director, HRD as Member Secretary.

8. Funding

- 8.1 The AUK shall provide adequate funding to meet the training requirement as per yearly requirement.
- 8.2 As per the National Training Policy-2012 and ICAR HRM Policy: Training and Capacity Building, it is recommended that at least 2.5 percent of its salary budget for training be provisioned.-To be more realistic, AUK shall allocate 1.5 per cent of the salary budget for trainings.
- 8.3. Directorate of HRD of the university shall be nodal unit for implementation of the Training Policy of Agriculture University, Kota. For effective implementation of it, annual training plan, networking of training institutes, impact assessment, etc., sufficient budget provisions may be made at the university HQs. and *modus operandi* for allocation and utilisation of the fund shall be worked out by Directorate of HRD of AUK. Further, Directorate of HRD shall allocate the HRD budget to various Functional Units in consultation with respective Incharges with the prior approval of the Vice Chancellor.

9. Implementation and Coordination

- 9.1 A Training Board, chaired by the Vice Chancellor shall be constituted for giving overall direction for the implementation of this Policy. The proposed Board may include all Directors and Deans, Registrar, Comptroller and Director, HRD as Member Secretary. The Board will meet bi-annually.
- 9.2 The Directorate of HRD shall be the nodal agency for the coordination and implementation of this policy and shall issue appropriate guidelines to amplify and facilitate its implementation. Each Functional Unit Incharge shall be the implementing unit for this Policy at the Functional Unit level and the Directorate of HRD shall facilitate the implementation at the AUK HQs.
- 9.3 ***Development of Competency Framework:*** With the shift to development of a competency based framework for the management of the Human Resources including training, the Directorate of HRD would need to enhance its own capacity (in terms of staff and their competencies) to be able to provide the leadership in detailing the manner in which the work is to be done, providing guidance and handholding support to the AUK and Functional Units and monitoring the progress so that the standards of quality in developing the competencies are adhered to and the task is completed in a reasonable period in a mission mode.

9.4 The Directorate of HRD needs to have proper co-ordination, synergy with the state Administrative Training Institutes (ATIs) and local reputed Training Institutes like IMTI, SIAM, HCM, etc. so that capacities, which already exist, can be optimally utilised.

9.5 Distance and E-Learning: Distance and e-learning provide unparalleled opportunities for meeting the training needs of large number of scientists, technical and administrative staff dispersed across the country in different cities, and towns. The Directorate of HRD of AUK may take a major step in this direction by tying up with IGNOU and VMOU to facilitate distance learning in a wide range of subjects and courses. Technology provides the means to make available a vast resource of learning material and courses online providing individuals with enormous choice and flexibility in learning. The Directorate of HRD needs to take the lead to ensure that institutions make available training courses/material through an E-Learning Portal as well as through the more conventional modes of distance learning. The portal would be a platform to bring together the numerous Government and other training institutions for providing a single point of access to the repository of training resources. The Directorate of HRD of AUK should also build up databases of the training resources available such as calendars of training programmes of different institutions, faculty in different subjects, etc.

9.6 Capacity Building Infrastructure in AUK:

Staff College of AUK: It would be appropriate to have one Staff College as the main Training Institution for all the employees of the University, which can also provide training to employees of other State Agriculture Universities of the State for competency development of employees with resource generation. Further, the Staff College need to be strengthened with adequate funds, infrastructure, manpower and decision-making powers under the overall supervision and monitoring of the Directorate of HRD.

10. Monitoring and Evaluation

10.1 Monitoring and Evaluation (M&E) is a powerful tool to improve the way, governments and organizations achieve results. Research studies indicate that effectiveness of training and development is significantly increased if the monitoring and evaluation of training programmes is systematically undertaken. In the era of globalisation and competition, training cannot remain an act of faith. It needs to demonstrate the returns on investment.

10.2 Evaluating the effectiveness of training is a very important but difficult aspect of training administration. Often, the evaluation in training institutions is limited to post-course questionnaires inviting trainees to comment on the course, trainer and training material. This cannot give a fair measure of whether investment in training is justified. Consequently, there is a need to embed comprehensive impact evaluation in the training eco-system where evaluation is not confined to the quality of training programmes or the learning derived by the participants but also evaluates changes in the job behaviour that resulted from the programme and its impact on organizational effectiveness and improvement in the satisfaction level of clients/citizens.

The HRD Nodal officer at Functional Unit Director HRD at the HQs shall undertake M&E of trainings.

10.3 Role of Directorate of HRD of AUK

- (i) Monitoring the implementation of Training Policy of Agriculture University, Kota.
- (ii) Maintain a database of training and development activities undertaken by AUK.
- (iii) Issue advisories from time to time so that training programmes are conducted based on 'Systematic Approach to Training' and build capacity of the employees of AUK

- (iv) Ensure that HRD Nodal Officers are nominated in all Functional Units, build their capacity and work in close coordination with them.
- (v) Identification of Institutes for training of the staff.

10.4 Role of Functional Units

- (i) Organizing orientation training to newly joined employee and exposing the employee to various activities within the Institute. HRD Nodal Officer shall develop the training schedule through
Training Need Assessment (TNA), ATP and CTP and ensure their effective implementation.
- (ii) Implementation of HRD activities at Functional Units level.
- (iii) Periodic review of training plan based on assessment of training needs.
- (iv) Evaluation of effectiveness of training.

Note:

This policy document defines the framework and guidelines for training management in Agriculture University, Kota which shall not be taken as right by the employees.

**Minutes of the meeting constituted for revision of fee structure of the colleges for
academic session 2024-25 held on 3rd November, 2023**

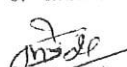

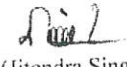

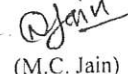

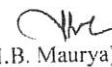

In reference to letter No. F2() AUK/2023/11541-48 dated 30.10.2023 regarding review of fee structure in line to suggestions made by the Registrar, AU, Kota considering establishing a long-term criteria benefitting students as well as University, the committee consisting of the following met in online mode on 03.11.2023:

1. Dr. I.B. Maurya, Dean, College of Horticulture and Forestry, Jhalawar
2. Dr. M.C. Jain, Dean, College of Agriculture, Ummedganj, Kota
3. Dr. N.L. Meena, Dean, College of Agriculture, Hindoli, Bundi
4. Dr. Jitendra Singh, Director, Student Welfare, Agriculture University, Kota
5. Dr. Virendra Singh, Controller of Examinations, AU, Kota
6. Sh. Ramkesh Meena, Treasury Officer, AU, Kota

The Convener while welcoming appraised the committee regarding the review of fee structure in line to the suggestions made by the Registrar, AU, Kota with emphasis on articulating long-term criteria of fee structure benefitting students as well as the University. The committee recommends that **in view of the increased operational and maintenance costs, the fee should be increased by 5% annually. Further, for the effective implantation of revised fee structure, the necessary order must be issued by the Registrar/Comptroller well before the commencement of the academic session.** The proposed fee structure is attached as Annexure-I

The detailed key observations of the committee are as follows:

1. Generally, the fee of Agriculture University, Kota is the lowest as compared to other SAUs. Hence, it seems justifiable to increase the fee in different categories in line to the fee structure of other State Agriculture Universities. The increase in fees under the chargeable heads is upto 5.1 per cent.
2. One specific fee category, namely NCC/NSS/Yoga/Scout has been newly introduced, while open access system in the library and reading room, late enrolment fee, late eligibility fee, merit certificate fee, duplicate merit certificate fee, book bank security fee and mess advance have been removed.
3. The more fee increase has been suggested in fee occasionally charged from the students such as duplicate migration fee, duplicate PDC fee, duplicate mark sheet fee, duplicate degree fee, duplicate transfer certificate fee, degree prior to convocation fee, late registration fee along with certificate and document verification fee. In such categories, the fee has been adjusted to align with other SAUs.
4. No fee increase has been suggested in heads like special mid-term test, cycle stand, M.Sc./Ph.D. thesis evaluation, Student association, Identity card, on farm field training, transfer certificate, character certificate, core course (Regular/Backlog) fee, late registration fee, hostel improvement, hostel amenities.
5. Provision has been made to refund fees in case of withdrawal of freshly admitted candidates from the institution.
6. Induction has been made for fee structure for Foreign students.

Minutes of the Meeting of the committee constituted for amendment in the existing norms for promotion of Assistant Professor from Stage I to Stage II and to decide the promotion policy for SMSs working in KVKs of the University held on 29.02.2024

In compliance to the University order No F.2/AUK/CAS/2023/7033-39 dated 08.08.2023 a meeting of the committee constituted for amendment in the existing norms for promotion of Assistant Professor from Stage I to Stage II and to decide the promotion policy for SMSs working in KVKs of the University was held on 29.02.2024 at 1:00 PM in the Conference Hall of Agriculture University, Kota. The following members were present:

- | | | |
|----|---|------------------|
| 1. | Dr. I.B. Maurya, Dean, CH&F, Jhalawar | Convener |
| 2. | Dr. Pratap Singh, Director Research, AU, Kota | Member |
| 3. | Dr. S.K. Jain, Director Extension Education, AU, Kota | Member |
| 4. | Dr. M.C. Jain, Dean, COA, Kota | Member |
| 5. | Dr. Mahendra Singh, DHRD, AUK & Sr. Scientist & Head, KVK, Kota | Invited Member |
| 6. | Dr. S.C. Sharma, Asso. Prof. (GPB), ARS, Kota | Member Secretary |

At the outset, the Chairman welcomed all the members present in the meeting. The committee thoroughly discussed both the agenda items in light of the UGS regulations- 2018 and ICAR guidelines and resolved the following:

Agenda 1: Amendment in the existing norms for promotion of Assistant Professor from Stage I to Stage II

- The existing norms of the University regarding service requirement for promotion of Assistant Professor Stage I (AL- 10 or AGP Rs. 6000) to Stage II (AL- 11 or AGP 7000) under CAS are as under-

Service Requirements: An Assistant Professor with complete services of 4 years possessing Ph.D. degree; 5 years possessing M. Phil/ M. Tech and 6 years without Ph.D. degree in AGP 6000 or Pay level AL 10

- These norms partially align with the norms of UGC, mentioned in the Point No. C. I. of Clause 6.4 of UGC regulations No. F.1-2/2017 (EC/PS) dated 18-07-2018 (Annex-I), reproduced below-

C. Career Advancement Scheme (CAS) for University teachers

I. Assistant Professor (Academic Level 10) to Assistant Professor (Senior Scale/Academic Level 11)

Eligibility:

- An Assistant Professor who has completed four years of service with a Ph.D. degree or five years of service with a M.Phil. / PG Degree in Professional Courses, such as LLM, M.Tech, M.V.Sc. and M.D., or six years of service in case of those without a Ph.D./M.Phil./ PG Degree in a Professional course.

- Earlier, undergraduate Degrees in Agriculture were considered non-professional. However, with ICAR's declaration through letter F. No. Edn. /13/1/2016-HRD dated 06-10-2016, Agriculture and allied subjects (including Agriculture, Horticulture, Agriculture Engineering, Dairy Technology, Fisheries, Sericulture, Home/Community Science, and Food Nutrition & Dietetics) are now recognized as professional degree courses (Annexure-II).
- Following this declaration, various institutes, including ICAR, New Delhi, DBSKKV, Dapoli, Maharashtra, RVSKVV, Gwalior, MP, CCS, HAU, Hisar, Haryana, ANGRAU, AP, PJTSAU, Telangana, and SAU, Gujarat, have adopted CAS norms in accordance with professional degrees.

5. Furthermore, two Agriculture Universities in Rajasthan (SKNAU, Jobner, and Agriculture University, Jodhpur) along with the Education (Gr. IV) Department, Govt. of Rajasthan, have already embraced CAS norms based on Professional Degrees (Annex-III,IV,V).

In light of these facts, the committee proposes to amend the existing norms for promotion of Assistant Professors Stage I to Stage II as mentioned below-

Service Requirements: An Assistant Professor with complete services of 4 years possessing Ph.D. degree; 5 years possessing M. Phil/ PG Degree in Professional Courses approved by the relevant statutory body, such as LLM, M.Tech, M.V.Sc. etc. or six years of service in case of those without a Ph.D./M.Phil/ PG Degree in a Professional course in AGP 6000 or Pay level AL 10

Note:

1. As per ICAR, New Delhi (Statutory body) decision, the PG degrees in Agriculture and allied subjects (including Agriculture, Horticulture, Agriculture Engineering, Dairy Technology, Fisheries, Sericulture, Home/Community Science, and Food Nutrition & Dietetics) shall be considered as Professional degree.
2. The other criteria including score card for personal promotion under CAS for promotion from Assistant Professor Stage-I to Stage -II (AL-10 to AL-11) shall remain unchanged.

Agenda 2: Career Advancement of Subject Matter Specialist (SMS) working in the KVKs of Agriculture University, Kota according to the norms of ICAR, New Delhi.

Key points regarding the agenda discussion are summarized below:

1. In 2011, ICAR, New Delhi vide its letter No.3-1/2011-AE-1, dated 29.3.2011 revised the grade pay of Subject Matter Specialist/ T6 working in the KVKs from Rs. 6000 to Rs. 5400 in pay band PB-3 (Rs. 15600-39100) under 6th CPC. Since, this new cadre did not previously exist in the SAUs, hence promotion policy for such cadre is lacking in the University.
2. ICAR, New Delhi has prescribed the norms for career advancement of Technical including T6, T-7/8 and T-9 (Category III posts) in ICAR Technical Service rules (IV edition), 2000.
3. However, in Rajasthan, no SAUs have yet implemented Career Advancement Scheme for SMS/ T6 employees with an AGP of Rs. 5400.
4. Since, KVKs are fully funded by ICAR; hence, obtaining permission from ICAR, New Delhi for any financial matters is imperative.
5. Seeing career advancement as an entitlement for every employee, the committee supports extending this benefit and suggests the following steps before its implementation:
 - (i) The University needs to request permission from ATARI, Jodhpur and/or ICAR, New Delhi for implementing the Career Advancement Scheme for SMSs in AU, Kota along with financial support.
 - (ii) The API/scorecard for Career Advancement must strictly adhere to ICAR guidelines.

The meeting was ended with the vote of thanks to the Chair.

Submitted to Registrar, Agriculture University, Kota for further official progressions.
